

IPF ELECTRONIC

←
**QR-CODE SCANNEN
UND FLYER DIGITAL LESEN**

IMAGE PROCESSING

PC-based systems, Opti-check camera sensors, All-In-One devices, C-Mount devices, auxiliary lighting and lenses

OPTICAL SENSORS

Through-beam sensors, retro-reflective sensors, diffuse-reflection sensors with and without background suppression and high-performance light barriers

PROCESS-OBSERVATION

Highspeed-cameras

POWER SUPPLIES

Switching power supply units 1/3-phase and power units

INDUCTIVE SENSORS

Norm and enlarged sensing ranges, all-steel, analog and ring sensors, pressure and welding proof sensors, sensors that are unaffected by atmospheric changes and with enlarged temperature range

FILLING LEVEL SENSORS

Capacitive sensors and mounting accessories, pendulum switches as well as conductive filling level relays and probes

THROUGH-BEAM SENSORS

Fork light barriers, angled light barriers and frame light barriers

LASER SENSORS

Through-beam sensors, retro-reflective sensors, diffuse-reflection sensors and measuring systems

EVALUATION SYSTEMS

Multifunction, pulse and time counters, time delay relays, measuring transducers, coupling relays, multifunction, rotation speed, pulse and zero speed monitors

FLUID SENSORS

Electronic pressure sensors with display, flow sensors for gaseous and liquid media, volume sensors, thermal elements and electronic temperature displays

MAGNETIC FIELD AND CYLINDER SENSORS

Magnetic field sensors with all-steel housing, fully electronic cylinder sensors and magnetic field sensors with enlarged temperature range

CAPACITIVE SENSORS

Metal and plastic devices, sensors with enlarged temperature range

LED LIGHTS

Machine lights, workplace lights, also with gooseneck, status lights, lights for image processing

SPECIAL OPTICAL SENSORS

Color and gloss sensors, luminescence scanners, light section sensors, contrast readers and line sensors

ULTRASONIC AND RADAR SENSORS

Through-beam, retro-reflective and diffuse-reflection sensors, furcate versions and radar motion sensors

SAFETY SYSTEMS

Safety light curtains, safety relays and accessories

ACCESSORIES FOR SENSORS AND CO.

Cable sockets, field-attachable connectors and couplings, distribution boxes, logic distribution terminals and modules, sensor testers, mounting material and precision positive stops for proximity switches

LINEAR MEASUREMENT SYSTEMS

Magnetically based incremental and absolute linear measurement, encoders and accessories

FIBER OPTIC SENSORS

Fiber optic amplifier,
glass and plastic fiber optic

IO-LINK

Solutions for Smart Factory applications

 **IO-Link**

IIOT GATEWAYS AND EXPANSION MODULES FOR DATA ACQUISITION

Centralized and decentralized energy data
acquisition and visualization

IPF ELECTRONIC

COMPRESSED AIR CONSUMPTION MEASUREMENT LEAKAGE DETECTION

Measure compressed air, detect leakages, save energy

CUSTOMIZED SENSORS

Customized solutions for special customer requirements

TOOLS

Torque wrench for connection cables, multi-function tool, stripping pliers

IPF ELECTRONIC - AT A GLANCE

THE WORD IMPOSSIBLE IS OUR GREATEST MOTIVATION.

We have stood for high-performance sensors in automation technology in the German-speaking markets for over three decades. We prioritize the highest level of quality and have our own production at our headquarters in Altena in Sauerland.

SALES / SUPPORT / CUSTOMER SERVICE

-  Personal point of contact and free visits
-  Is a product unavailable? Using specific criteria, we will search for a suitable device on the market and/or develop and manufacture it for you!
-  Individual trainings
-  Many years of application experience in a wide range of industries / extensive know-how
-  Free test devices on demand
-  Customer-oriented support
-  Support for assembly and start up
-  Project assistance from analysis through to tailor-made solutions and start up
-  Feasibility studies at ipf or at the customer's facility
-  Telephone hotline on weekdays from 7:30 am to 4:00 pm / Fridays until 3:00 pm
-  Cross reference of articles from other manufacturers
-  Provision of free replacement devices
-  Uncomplicated processing of complaints (8D report)

ORDER MANAGEMENT

-  Orders made before 3:00 pm are shipped the same day
-  Delivery on specific day (special customer request)
-  Permanent staffing of the department on weekdays between 07:30 am and 4:00 pm / Fridays up to 3:00 pm
-  Barcode on delivery notes for customer reference
-  Your material numbers on our receipts for easy incoming goods inspection and handling
-  Connection via EDI and OCI possible

DEVELOPMENT / PRODUCTION

Close cooperation between development & sales / short reaction times (direct contact to developer)

Products tailored to the application are created in close cooperation with the customer from the idea through development to series production

Problem solving with developer on site

Project coordination with competent specialists from sales and development at the customer's facility

High-quality technical equipment for developing state-of-the-art technologies and intelligent products

Quick and flexible reaction thanks to modular systems and pre-fabricated assemblies

Digital production approach, continuous optimization of the production processes

Most suppliers and service providers are located in Germany, preferably in the region

Production in Germany

Precise delivery dates and batch sizes according to customer forecast

Flexibility through small, medium and high batch sizes

Industry 4.0-compatible, thus all processes are traceable via assigned serial numbers, already in the production process

PRODUCT DATA / PRODUCT INFORMATION

Special conditions available via webshop

Electronic catalogs (BMEcat / Excel / CSV)

Homepage with webshop and all relevant device data and product search via device properties

Free software updates for you to download

Documentation in national language upon request

Free parameterization software for our products

Classification of product data according to ETIM & eCl@ss

Free 3D data for installers

Provision of EPLAN macros
